

Invitation to **GSAN**'s first international
Sustainable Water Business Training Week

Berlin University
of Applied Sciences

GSAN
German Solar
Academy Network
Solar Energy Capacity Building

GSAN-iSWB2025 #1 at SRH Berlin + online

New format! – 20th to 30th March, 2025

...in the context of 7th Solar Winter School PV RIGHT AHEAD 2025 on new SRH campus

Training Organization:

Projects for Sustainable Development -
Global Marketing of Photovoltaics

Incl. Water Tradeshow
and Site Visits:

TAUSEND WASSER
26. + 27. März 2025 STATION-Berlin

We look forward to a great
Event and Time together !

GSAN international Sustainable Water Business Training Week

GSAN-iSWB2025 #1 at SRH Berlin + online

6.5 joyful training days with loads of networking, great learning, fun and fresh new insights...

incl. hands-on exercises, excursions, cultural program, training hand-outs, university certificate (3ECTS) and post-seminar guidance

The technology sector for sustainable water management faces many challenges - political, ecological and social.

We want to discuss economical feasible and sustainable practices that lead to adequate technical/managerial solutions.

Based on theoretical learning and discussion in class, and accompanied by various hands-on activities, industry dialogue, site-visits and work-shops, our valued international trainees will get the chance to gather practical engineering knowledge.

In our short course we will dynamically – and very team-oriented – address topics like:

Innovative Technologies and Trends – Rural Water Supply – Water-Energy-Food – Solar Irrigation – Pumping Technologies – Rain Water Harvesting – Water Storage – Water Conservation and Protection Strategies and Measures – Municipal Water Supply and Sewage Water Treatment – Integrated River Basin Management – Potable Water Production from Small to Big Scale – Water Purification Methods – Ground Water Exploration and Well-building – Fertilizer/Nutrient Recovery from Sewage Water – Artificial Wetlands – Combined Natural Engineered Systems – Ecological Sanitation – Water Chemistry and Analytics – Water Quality Standards

Guided tour to water industry tradeshow TAUSENDWASSER <https://www.messe-tausendwasser.de>

Company staff 450 EUR, Freelance 350 EUR, Student 280 EUR, SRH Student 220 EUR, incl. tax; Early Bird till 20th December 2024!
group tickets available! **Online participation: 30% off ! Contact: training@gsan.solar or raab@pv-pa.com**

www.srh-berlin.de/en/short-courses/; www.linkedin.com/company/gsan-german-solar-academy-network/; www.gsan.solar;
